KSC/CCAFS HEALTH EDUCATION & WELLNESS PROGRAM (HEWP)

SEPTEMBER 2006 POLLUTION PREVENTION: In our fast-paced lives, we tend to disregard many things. Unfortunately, one of the things we disregard is our environment. Our American lifestyle seems to give us almost no choice but to incorporate cars, fast food, disposable items, newspapers, air conditioning, household appliances, and many other items into our daily routines. Unfortunately, what we gain in ease, safety and comfort from using these items, we lose in the frustration of having to deal with the health problems that are directly related to the pollution we have put into the environment. The September 2006 packet addresses pollution education and prevention.

Hardcopies of the packet will be available at all medical and fitness facilities. If you or your department/organization would like to be added to the monthly packet hardcopy distribution list, please call Kris Calderon at 867-3414.

****HEALTH EDUCATION INFORMATION TABLE**:** The monthly health education table will be set up in the MFF cafeteria on September 7th from 11:00 am to 1:00 pm where HEWP staff will distribute the pollution packet and related information.

***NEW EDUCATION SEMINAR SERIES*:** The Health Education and Wellness Program (HEWP) presents a new series of seminars for spaceport employees dealing with diabetes either personally or through a family member. The purpose of the series is to educate the workforce about diabetic issues particularly in light of the increasing incidence of diabetes.

The first diabetes education seminar will be on Diabetes in the Workplace. The seminar will be held on Wednesday, September 20, 2006 from 11:00 am. -12:00 noon in the Mission Briefing Room at the O&C.

As a guest presenter for this seminar, the HEWP will host a diabetes educator from the Parrish Hospital Diabetes Education Program. The seminar will cover an introduction to diabetes management highlighting issues such as glucose testing and other management methods in the workplace. Supervisors are also encouraged to attend.

To be placed on the Diabetes Interest Group e-mail listserv, please e-mail Kris Calderon at Kristine.Calderon@jbosc.ksc.nasa.gov Listserv members will be sent information from the diabetes education series seminars along with other information and announcements pertaining to diabetes.
